To Whom It May Concern:

Acadian Ambulance Service, Inc. has enjoyed a long-standing business relationship with Louisiana Recovery Services, Inc. In placing our business with them, we know our customers' accounts will be handled efficiently and professionally.

We have retained various collection agencies over the years including "national" collection agencies that specialize in ambulance collections, and they have not been able to out perform Louisiana Recovery Services, Inc.

We have retained their bad debt collection services for the past fourteen years and are impressed with the recovery of our accounts, as well as the professional manner with which they conduct their business.

I would recommend Louisiana Recovery Services, as they have proven very effective in collecting on our behalf.

Sincerely,

Richard E. Zuschlag  
Chairman & CEO
