To Whom It May Concern:

Our company has been utilizing the services of Louisiana Recovery Services for the last three years and highly recommends them to any business that is serious about their collection efforts.

We have used several other collection services in the past and none have compared to the collection results we have seen with LRS. We feel comfortable in placing accounts with them due to their professionalism and confidentiality that is so crucial in collecting on medical accounts.

We have had nothing but pleasant experiences with the staff and feel that they give special attention to our concerns and needs in every situation and look forward to continuing our business relationship with them for many years to come.

Keli Foret  
***Administrative Director***
