To Whom It May Concern:

This letter serves as verification of our complete satisfaction with Louisiana Recovery Services. Dr. Robin Bary and his staff, appreciate the professional and courteous manner in which their Sales Representative, Jane Boudreaux and the team at LRS provide in collecting our medical accounts.

Persuing patients for payment of medical bills, large or small, can be a delicate situation. We have done business with LRS for over ten years and they have provided us with successful account recovery. We look forward in continuing to work with Louisiana Recovery Services in the future and we highly recommend them.

Robin J. Barry, M.D.
