To Whom it May Concern;

Our company has been using your firm for quite a few years now. Several Collection Agencies call our office to take over the delinquent accounts. I do not even consider the thought, only because I am so pleased with the quick, courteous, response with your company, including the prompt way you collect from the customers who refuse to pay. The time and money it takes for us to write outstanding statements, not to mention the extra postage, paper, envelopes, plus our labor. Many times it just is not worth it for us and somehow you always manage to come across! Any time I am able to recommend your company, I do so with great confidence, because your company has never let me down.

Many thanks for the great job that everyone partakes to take care of us, your customers!  
Your assistance is greatly appreciated!

Sincerely yours,

Janet C. Dodge
